Product Description

SnowEx Speedwing Automatic Winged Snow Plow

Don't just clear snow, outsmart it. The SnowEx® SPEEDWING automatic wing plow works as hard as you do. Intuitive mechanical wings automatically adjust as you angle the blade, ensuring the wings are in the optimal position to move the maximum amount of snow. This is how you combine the simplicity of a straight blade plow with the power of a winged plow. Get more snow-clearing done in less time, enhance your profits, and get onto the next job.
